AUDITORS' LIMITED REVIEW REPORT

To the Shareholders
Dar Al Arkan Real Estate Development Company
(A Saudi Joint Stock Company)
Riyadh – Kingdom of Saudi Arabia

Scope of review

We have reviewed the accompanying interim consolidated balance sheet of **Dar Al Arkan Real Estate Development Company** (A Saudi joint stock company) (the "Company") as at June 30, 2013 and the related interim consolidated statement of income for the three-month and six-month periods then ended and the interim consolidated statements of cash flows and changes in shareholders' equity for the six-month period then ended, prepared by the Company and submitted to us with all the information and explanations which we require. These interim consolidated financial statements are the responsibility of the Company's management.

We conducted our limited review in accordance with the Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants. A limited review of interim financial statements consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. This limited review is substantially less in scope than an audit conducted in accordance with the Auditing Standards Generally Accepted in the Kingdom of Saudi Arabia, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Review result

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with the Accounting Standards Generally Accepted in the Kingdom of Saudi Arabia.

The accompanying interim consolidated financial statements include the assets, liabilities and the results of operations of the subsidiaries mentioned above.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

The interim consolidated financial statements have been prepared in accordance with the accounting standards generally accepted in the Kingdom of Saudi Arabia issued by the Saudi Organisation of Certified Public Accountants (SOCPA).

2.2 ACCOUNTING CONVENTION

The interim consolidated financial statements have been prepared on the historical cost basis, using accrual basis and going concern assumption except for commission rate swaps which are measured at fair value and investments in associates which are accounted for under equity method of accounting.

2.3 BASIS OF CONSOLIDATION

The interim consolidated financial statements of the Group incorporate the financial statements of the companies and enterprises controlled by the Group (its subsidiaries) made up to 30 June 2013.

Subsidiaries are entities over which the Group has the power to control the financial and operating policies to obtain economic benefit to the Group. Subsidiaries are fully consolidated from the effective date of acquisition up to the effective date of disposal, as appropriate.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured at the fair value of the assets acquired/transferred, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed are initially measured at the fair value at the acquisition date irrespective of the extent of any non-controlling interests. The interests of non-controlling shareholders are stated at the non-controlling proportion of the assets and liabilities recognised. Subsequently, any losses applicable to the non-controlling interests in excess of the non-controlling interests are allocated against the interests of the parent.

The excess of cost of acquisition over the Group's share of identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the carrying value of the identifiable net assets acquired (i.e. discount on acquisition) is recognised directly in the interim consolidated statement of income.

All intra-group transactions, balances, and unrealised gains on transactions between Group companies are eliminated on consolidation. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Investments in associates

An associate is an entity over which the Group is in a position to exercise significant influence, but not control or joint control, through participation in the financial and operating policy decisions of the investee.

The results, assets and liabilities of associates are incorporated in these interim consolidated financial statements using the equity method of accounting except when classified as held for sale. Investments in associates are carried in the interim consolidated balance sheet at the Group's share of the net assets of the associate. Losses of the associates in excess of the Group's interests in those associates are not recognised.

Any excess of cost of acquisition over the Group's share of the identifiable net assets acquired of the associate at the date of acquisition is recognized as goodwill. The goodwill is included within the carrying amount of the investment and is assessed for impairment as part of that investment. Any deficiency of the cost of acquisition below the Group's share of the identifiable net assets of the associate at the date of acquisition (i.e. discount on acquisition) is recognised in the interim consolidated statement of income.

Where a Group company transacts with an associate of the Group, profits and losses are eliminated to the extent of the Group's interests in the relevant associate or joint venture. Losses may provide evidence of an impairment of the asset transferred in which case appropriate provision is made for impairment.

2.4 PROPERTY AND EQUIPMENT

Property and equipment are stated at cost less accumulated depreciation and any recognised impairment loss.

Depreciation is charged so as to write off the cost less estimated residual value of assets, other than land, over their estimated useful lives, using the straight-line method, on the following basis:

Buildings	3%
Leasehold improvements	5% - 20%
Vehicles	25%
Machinery and tools	20%
Office equipment	20% - 25%

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the interim consolidated statement of income.

At each date of preparation of the interim consolidated financial statements, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

2.5 INVESTMENT PROPERTIES

Investment properties, which are properties held to earn rentals and/or for capital appreciation, are stated at cost less accumulated depreciation and any recognised impairment loss. Depreciation is charged so as to write off the cost less estimated residual value of assets, other than land and properties under construction, over their estimated useful lives, using the straight-line method, on the following basis:

Buildings	3%

Gains or losses arising from the retirement or disposal of investment properties being the difference between the net disposal proceeds and carrying value are included in the interim consolidated statement of income for the period of the retirement/disposal except those that relate to sale and leaseback arrangements.

2.6 FINANCE CHARGES

Financing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other financing costs are recognised in the interim consolidated statement of income in the period in which they are incurred.

2.7 FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised on the Group's interim consolidated balance sheet when the Group has become a party to the contractual provisions of the instrument.

Accounts receivable
Accounts receivable are initially recognised at transaction value. They are subsequently measured for their realisable value and a provision for impairment is made where there is objective evidence, (including customers with financial difficulties or in default on payments), that amounts will not be recovered in accordance with original terms of the agreement. The carrying value of the receivable is reduced through the use of an allowance account and any impairment loss is recognised in the interim consolidated statement of income.

Cash and cash equivalents
Cash and cash equivalents comprise cash in hand and at bank and other short-term deposits held by the Group with maturities of less than three months.

Financial liabilities
Financial liabilities are classified according to the substance of the contractual arrangements entered into. Financial liabilities include Islamic Sukuk and Islamic Murabaha; these are recorded initially at cost. Direct transaction costs are subsequently carried at their amortised cost and are recognised in the interim consolidated statement of income over the term of the instrument.

Accounts payables
Accounts payables are initially recognised at cost and subsequently at amortised cost using the effective commission method.

Commission rate swaps
Commission rate swaps are measured at fair value. Fair value is recorded as an asset when the fair value is positive and as a liability when the fair value is negative. The fair value is determined as per the market quoted prices, cash flow discount and pricing methods, as appropriate.

Changes in fair value of commission rate swaps held for trading are recognised directly in the interim consolidated statement of income, and are included in other income.

2.8 IMPAIRMENT OF TANGIBLE ASSETS

At the date of each interim consolidated balance sheet, the Group reviews the carrying amounts of its tangible assets for any indication that those assets have suffered impairment losses. When such an indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Recoverable amount is the higher of realisable value less costs to sell and value in use. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised in the interim consolidated statement of income.

2.9 REVENUE RECOGNITION

Revenue represents the sale of residential properties and land. Revenue is recognised to the extent that it is probable that economic benefits will flow to the Group and significant risks and rewards of ownership have been transferred to the buyer. Revenue is measured at the value of consideration received. With respect to rental income, the Group recognises revenue on a straight line basis over the lease term.

2.10 ZAKAT

Zakat is calculated and recognised in the interim consolidated statement of income for the period and for each financial period separately pursuant to Zakat Regulation in the Kingdom of Saudi Arabia. The provision for Zakat is adjusted in the financial period in which the final assessment of Zakat is issued. Variances between the amount of provision for Zakat as per the consolidated financial statements and the provision as per final assessment issued by the Department of Zakat and Income Tax ("DZIT") are recognised in the interim consolidated statement of income as changes in accounting estimates and included in the financial period in which the final assessment of Zakat is issued.

2.11 FOREIGN CURRENCIES

Transactions in currencies other than Saudi Riyals, the presentational and functional currency of the Group, are recorded at the rates of exchange prevailing on the dates of the transactions. At each interim consolidated balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are retranslated to Saudi Riyals at the rates prevailing on the interim consolidated balance sheet date. Non-monetary assets and liabilities that are denominated in foreign currencies are translated to Saudi Riyals at the rates prevailing at the date when the cost was determined.

2.12 STATUTORY RESERVE

According to the article (176) of the Companies' Regulation, the Group retains 10% of net income against the statutory reserve. The Group may stop the deductions when this reserve reaches 50% of the share capital. This reserve is not available for dividend distribution.

2.13 END-OF-SERVICE INDEMNITIES

The Group provides end-of-service benefits to its employees in accordance with the labour law provision of Saudi Arabia. The entitlement to these indemnities is based upon the employee's final salary, length of service and the completion of a minimum service period. The costs of these indemnities are accrued over the period of employment at the rate of the employee's current salary and are paid on cessation of employment.

2.14 RETIREMENT BENEFIT COSTS

The Group makes contributions in line with the General Organisation for Social Insurance Regulations and are calculated as a percentage of employees' wages. Payments made to state-managed retirement benefit schemes are dealt with as payments to defined contribution plans where the Group's obligations under the schemes are equivalent to those arising in a defined contribution retirement benefit plan. Payments made to defined contribution retirement benefit plans are charged as an expense as they fall due.

2.15 LEASING

Rentals payable under operating leases are charged to the interim consolidated statement of income on a straight-line basis over the term of the relevant lease.

2.16 OPERATING EXPENSES

The Group follows accrual basis of accounting to record the operating expenses and recognised as expenses in the interim consolidated statement of income in the period in which they are incurred. Expenses that are deferred for more than one financial year are allocated to expenses over such periods using historical cost.

3. USE OF ESTIMATES

The preparation of interim consolidated financial statements in conformity with generally accepted accounting standards requires use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current event and activities actual result ultimately may differ from those estimate.

4. BUSINESS AND GEOGRAPHICAL SEGMENTS

Business segments
For management reporting purposes, management has organized the Group around three divisions which match its entity structure. These are in line with its strategic planning and business model and include DAR Projects, DAR Investments and DAR Properties.

Geographical regions
The Group operates exclusively in Saudi Arabia and all its revenues derive from its portfolio of properties which the Group manages. As such there is no additional geographical information.

Products and services
DAR projects is principally focused on the development of basic infrastructure on undeveloped land and the sale of such land ("Sale of land") and the development of residential and commercial projects for Sale ("Sale of residential properties") or leasing such developed properties to generate rental revenue ("Lease income").

7. RELATED PARTY TRANSACTIONS

a) Due from a related party

During the period, the Group sold residential homes to individuals who sought financing from Saudi Home Loans, which is an associate to the Group. In these instances, Saudi Home Loans pays the consideration in respect of the residential property sold to the Group on behalf of the individual. There is no recourse to the Group if such lending by Saudi Home Loans results in a bad debt. The details of the transactions are as follows:

Analysis of borrowings:

Islamic Sukuk – International

This represents SR 3.38 billion of Islamic Sukuk comprising:

1) SR 1.69 billion (USD 450 million) of Islamic Sukuk carried in the books of the Group, issued by Dar International Sukuk Company II at 10.75% and maturing in 2015.

2) SR 1.69 billion (USD 450 million) of Islamic Sukuk carried in the books of the Group, issued by Dar Al-Arkan Sukuk Company Ltd. at 5.75% and maturing in 2018.

The beneficiary rights of the properties are with Dar Al Arkan Real Estate Development Company and its subsidiaries with the rights to buy back the ownership of these properties upon the full repayment of the Sukuk. The investment profit is payable to the Saudi SPV, through which the Sukuk was issued, by the sale of properties owned by the Group. The Group has issued a corporate guarantee to the Sukuk holders. This facility has index based commission rate swap arrangements which effectively reduce the fixed rate commission (Note 15).

The Islamic Sukuk (International) is denoted in US dollars. Since the Saudi Arabian Riyal is limited to fluctuations in the US Dollar there is no exposure to foreign exchange risk.

Islamic Sukuk - Local

This represents an Islamic Sukuk issued by the Group for the amount of SR 750 million maturing in 2014.

The Sukuk agreements include financial covenants, which the Group was in compliance with as at 30 June 2013.

15. COMMISSION RATE SWAP

The Group, through a shari'ah compliant arrangement, agreed to exchange fixed rate commission liability with floating rate commission amounts, calculated on agreed notional principal amounts. In July 2012, the group replaced its existing commission rate swap with two new index linked swap facilities for a notional amount of SR 843.75 million (US$ 225 million) each, maturing on 18 February 2015 whereby the counter party banks shall periodically calculate the floating commission rate based on their respective and designated index performance for the period and settle the differential amounts, if any with respect to the original fixed rate of the commission applicable for the securities at semi-annual basis. The index performance is capped at 10.75% and 12.55% respectively for this index linked swap facilities.

The cumulative fair value of this agreement which does not qualify for hedge accounting in accordance with generally accepted accounting standards amounted to SR (21.10) million (USD (5.63) million) (30 June 2012: SR 56.19 million (USD 14.98 million). The change in the fair value during the period amounting to SR 31.13 million (USD 8.30 million) has been recognised as other expenses in the interim consolidated statement of income (SR 3.35 million (USD 0.89 million) for the six-month period ended 30 June 2012).
